3/29/2019 2:42 AM	Peter Butler	Against	The proposed 8.03 text will effectively reject the signatures of St. Paul residents who move frequently, have not voted within the last four elections, refuse to give their birth year, or change names due to marriage or divorce but do not update their registration record. People who transpose their address on a petition, do not use their full legal name (included hyphenated last names) or provide the wrong birth year will have their signatures rejected. Such strict requirements disenfranchise low-income people and minorities.	+2
